Message From The Principal

Dear Students, schooling is our first contact with the world, a period of joy, healthy competition, fearing, adjustment, sharing and love. It is not the wide open spaces, classrooms, the library, laboratories or the large fields that make the school. It is in the heart of the students and staff that the true institution exists.

According to academic analysts, the youth of future generation are going to be more prone to violence and deviant behaviour. This deteriorating trend is a matter of great concern to parents as well as teachers. We are all aware through media reports of incidents of abuse, self-inflicted violence, violent outburst, depression, violence using social media and other on-line forms.

Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. This school is oriented to the total formation of a child and to adaptations of various methods suiting the dynamics of changing world in order to achieve common goals and objectives. It is further characterized by shared vision - responsibility and above all, love and faith in God in order to achieve these goals.

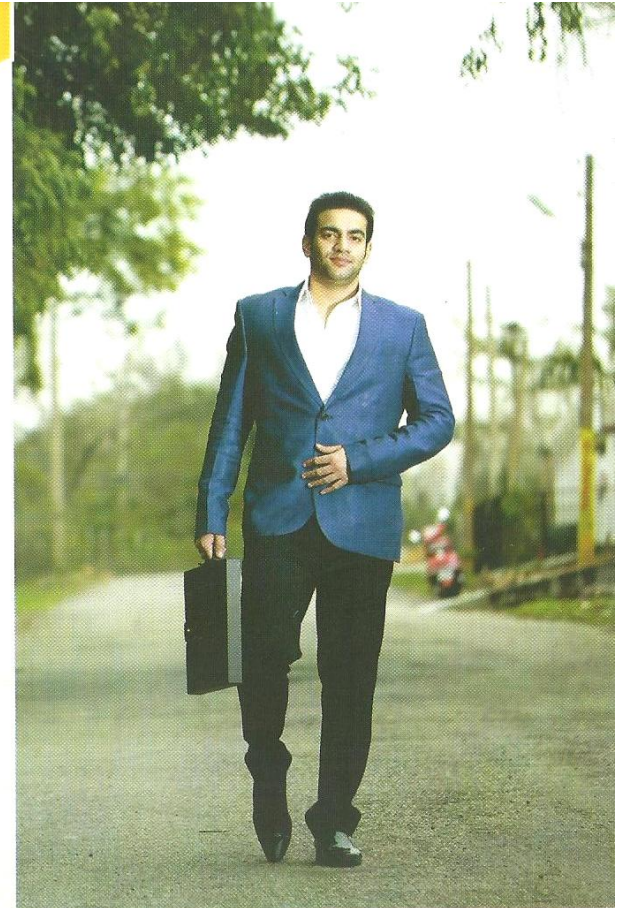

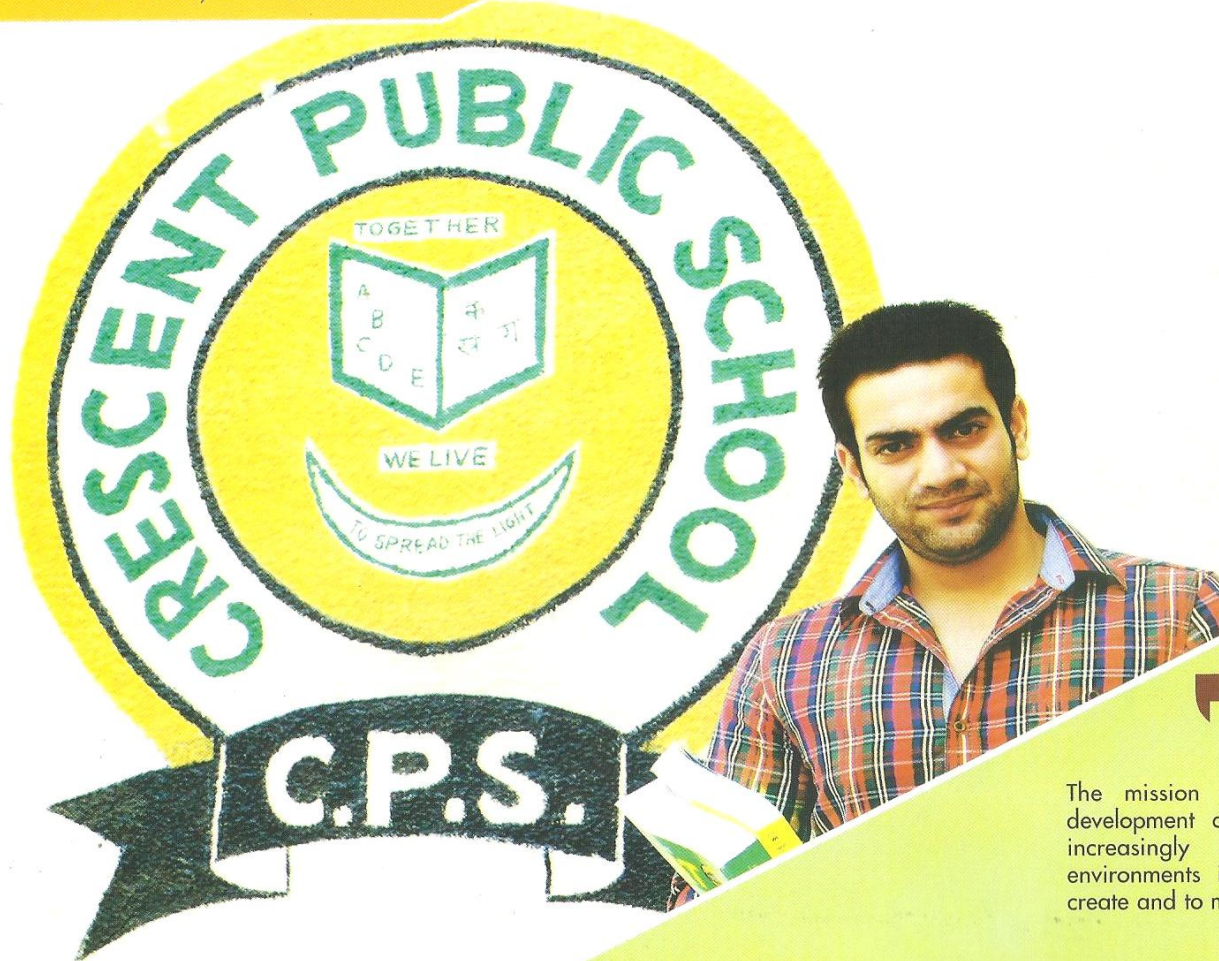

In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I also laud the relentless efforts of our teachers for giving their best in bringing out the best in each child. But I would exhort the students to be always modest, humble and discipline, while being ready to expand the horizons of their knowledge and skills by dreaming big and working hard.

Dear students, it is my message to you all that the people of fine character live by their values. They are honest and are committed to truthfulness in thought, word and deed. True character thus encompasses the capacity for self-discipline.
